2. RATE MILEAGE

2.1 REGULATIONS

APPLICATION OF RATE MILEAGES

2.1.1

For some services, rates vary based on the distance between the originating and terminating channel terminations involved in completing the transmission path. Charges for these services will depend on calculated rate mileage between rate centers.

RATE MILEAGE MEASUREMENTS

2.1.2

Rate mileages are generally equivalent to airline miles between two points, called rate centers. Each rate center has both a vertical (V) and a horizontal (H) coordinate which are defined based on the geographic latitude and longitude of the rate center. A list of V&H coordinates used by the Company is shown at section 2.2. The distance between any two rate centers is the rate mileage computed as explained in 2.1.3.

2.1 REGULATIONS (Continued)

DETERMINATION OF RATE MILEAGE

2.1.3

The rate mileage between two rate centers is computed using the formula:

$$A^2 + B^2 = 10 \times C^2$$

Where A is the difference between vertical ("V") coordinates of the two rate centers, B is the difference between the horizontal ("H") coordinates, and C is the rate mileage between rate centers.

The formula used to determine rate mileage is:

$$\text{Rate Mileage} = \text{Square root of } (V_1 - V_2)^2 + (H_1 - H_2)^2 / 10$$

Where V_1 and V_2 are the vertical coordinates and H_1 and H_2 are the horizontal coordinates of rate centers 1 and 2 respectively.

3.1 PAYMENT ARRANGEMENTS

ESTABLISHMENT OF CREDIT

3.1.1

Each applicant for service may be required to establish credit before service is provided. When the applicant's credit is satisfactory to the Company, no deposit will be required. If an applicant's credit is not satisfactory, an advance payment or deposit will be required.

The Company is not obligated to furnish telephone service to an individual or firm that has an outstanding delinquent balance for telephone service (residential or business) previously rendered at the same or different address, unless arrangements have been made to liquidate such indebtedness to the Company.

(A) Establishment of Credit - New Applicants

- (1) Applicants for service who have had no previous account with the Company may establish credit by supplying credit references acceptable to the Company. The Company might not require a deposit when the supplied credit references are acceptable.
- (2) Applicants who are unable to furnish acceptable credit references may be required to make advance payments or place a deposit with the Company.

(B) Re-Establishment of Credit

- (1) A customer who fails to pay a bill for service may be required to bring the account current and re-establish credit by making a deposit.

The Company may require an existing customer to make a deposit or increase a deposit if increased usage warrants such action or if the customer's payment record is unsatisfactory.

The fact that a deposit has been made shall in no way relieve the applicant or customer from complying with the Company's requirements as to the prompt payment of bills on presentation nor constitute a waiver or modification of the regular practices of the Company providing for the discontinuance of service for non-payment of any sums due the Company for service rendered.

The Company may discontinue service to any customer failing to pay bills without regard to the fact that such customer has made a deposit with the Company to secure payment of such bills or has furnished the Company with the guarantee in writing of such bills.

4.2.1

(A) Charges for Message Telephone Service

Charges for Message Telephone Service are applied as specified in Section 4.2.

(B) Rate Mileages

Rate mileages between rate centers utilized in the determination of charges for Message Telephone Service are determined as shown in Section 2.1.3 of this tariff.

(C) Timing of Calls

The time-of-day when connection is established, in accord with the time in use at the originating point, determines whether Day, Evening, or Night/Weekend rates apply on a message telephone call. All minutes are rated according to the applicable rate period regardless of whether a message begins in one period and ends in another (i.e. if a call is placed at 4:45 pm and ends at 5:30 pm, the Day rate would apply up to, but not including 5 pm. The Evening rate would apply from 5 pm to 5:30 pm.). Chargeable time for a rate period (e.g. 8 am to 5 pm) begins with the first stated hour (8am) and continues to, but does not include, the second stated hour (5 pm).

(D) Fractional Rates and Charges

When a rate involves a fraction of a cent, the fraction is carried through the computation of the charge for the service. When the charge so computed includes a fraction of a cent, a fraction of less than one-half cent is disregarded and a fraction of one-half cent or more is treated as one cent.
